- Extinguishing Media** : Use water spray or foam.
Specific Hazards Arising from the Chemical : Hydrogen chloride, oxides of nitrogen.
Special Fire Fight Proc : Wear self-contained breathing apparatus and full protective clothing. Evacuate area and fight fire upwind from a safe distance to avoid possible hazardous fumes and decomposition products. Dike and collect water used to fight fire.

6. Accidental Release Measures

- Personal Precautions** : Keep unprotected and unnecessary personnel out of spill area.
Protective Equipment : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Use respirator with organic vapor cartridge and pesticide prefilter in enclosed areas. Eyewash and emergency shower should be available in work area.
Emergency Procedures : Minimize use of water to prevent environmental contamination.
Methods and Materials for Containment and Cleanup : Clean up spills immediately. Absorb small spills on sand, vermiculite or other inert absorbent. Place contaminated material in appropriate container for disposal. Dike large spills using absorbent or impervious material such as clay or sand. Recover and contain as much free liquid as possible for reuse. Allow absorbed material to solidify, and scrape up for disposal.

7. Handling and Storage

- Precautions for Safe Handling** : Keep locked up and out of reach of children. Do not contaminate water, food or feed by storage, handling or disposal. Keep container tightly closed. Do not allow water to be introduced into the contents of the container.
Conditions for Safe Storage : Store in original container only. Do not store near heat or open flame. Do not store with oxidizing agents or ammonium nitrate.

8. Exposure Controls / Personal Protection

- TLV/PEL** : 2-Ethylhexyl ester of 2,4-Dichlorophenoxyacetic acid - 10 mg/m³ (TLV).
Appropriate Engineering Controls : Local mechanical exhaust ventilation may be required.
Personal Protective Equipment : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Use respirator with organic vapor cartridge and pesticide prefilter in enclosed areas. Eyewash and emergency shower should be available in work area.
